Journal of Wind Engineering and Industrial Aerodynamics

Contents Volume 32 (1989)

Vol. 32 Nos. 1-2

The Seventh International Conference on Wind Engineering
A. Jeary 1
Pilot study of extreme wind velocities in a mixed climate considering wind orientation
J.D. Riera and L.F. Nanni (Porto Alegre, RS, Brazil) 11
Correction of annual maximum windspeed considering yearly variation of the ground roughness in Japan
Y. Tamura and K. Suda (Kanagawa, Japan) 21
An analytic formalism to calculate vertical wind profiles in hilly terrain
G. Tetzlaff and A.M. Hoff (Hannover, F.R.G.) 31
Observations of heat flux in an urban area with a large pond by kytoons
T. Katayama, J. Tsutsumi, A. Ishii and M. Nishida (Fukuoka, Japan) and M. Hashida (Kitakyushu, Japan) 41
Wind-tunnel and full-scale comparisons on the change of local wind characteristics due to an open cut
H. Utsunomiya, F. Nagao (Tokushima, Japan) and S. Yoshimura (Tokyo, Japan) 51
Design wind loads for overhead power lines accounting for wind direction
S.G. Krishnasamy and N. Ramani (Toronto, Ont., Canada) 63
Pulsed laser velocimetry measurements of the vortex shedding from structural elements
I. Grant, G.H. Smith, E. Owens and F.H. Barnes (Edinburgh, Gt. Britain) 73
Aerodynamic damping and stiffness of a semi-circular roof in turbulent wind
D.J. Daw (Niagara Falls, Ont., Canada) and A.G. Davenport (London, Ont., Canada) 83
Wind forces on structures supporting solar collectors
A. Radu and E. Axinte (Iassy, Rumania) 93
A permeable windbreak: its effect on the structure of the natural wind
G.M. Richardson (Bedford, Gt. Britain) 101
Comparison of low and medium rise housing developments in wind tunnel. Energy and wind climate aspects
K. Balázs (Dávid, Hungary) 111
The generation of peak pressures in separated/reattaching flows
P.J. Saathoff and W.H. Melbourne (Monash, Vic., Australia) 121
Drags on several polygon cylinders
Z. Szalay (Budapest, Hungary) 135
Wind forces on bridges — numerical vs. experimental methods
H.P. Santo and F.B. Branco (Lisbon, Portugal) 145
Parametric investigation of wind-induced cable-stayed bridge motion using an aeroelastic model
S.J. Zan, R.L. Wardlaw (Canada), H. Tanaka (Ottawa, Ont., Canada) and H. Yamada (Yokohama, Japan) 161
Consideration of higher vortex-excited modes in reliability analysis of bridge structures
M. Matsumoto (Kyoto, Japan) and P.H.W. Prenninger (Innsbruck, Austria) 171
Windforces and strains of reinforced concrete chimneys
H. Kessler (Karlsruhe, F.R.G.) 181

Galloping of tower-like structure with two closely-spaced natural frequencies
P. Pheinsusom, Y. Fujino, and M. Ito (Tokyo, Japan) 189
Measurement of wind effects on a 300-m concrete chimney — reference parameters
J.L. Waldeck (Pretoria, South Africa) 199
Wind load on multi-flue chimneys in truss or frame-truss housing
R. Ciesielski and A. Flaga (Cracow, Poland) 211
Florida's approach to hurricane-resistant design and construction
H.S. Saffir and F. Asce (Gables, FL, U.S.A.) 221

Vol. 32 No. 3

A simple computational method for performance prediction of tip-controlled horizontal axis wind turbines
A.A. Afjeh and T.G. Keith Jr (Toledo, OH, U.S.A.) 231
An analytical approach to optimum design and peak performance prediction for horizontal axis wind turbines
M.M. Pandey (Bhopal, India), K.P. Pandey and T.P. Ojha (Kharagpur, India) 247
Video images of smoke dispersion in the near wake of a model building. Part II. cross-stream distribution
A.H. Huber (Res. Triangle Park, NC, U.S.A.) and S.P.S. Arya (Raleigh, NC, U.S.A.) 263
IAWE Aylesbury Comparative Experiment — preliminary results of wind tunnel comparisons
B.L. Sill (Clemson, SC, U.S.A.), N.J. Cook and P.A. Blackmore (Watford, Gt. Britain) 285
A numerical analysis of the unsteady flow past a savonius wind turbine
M.S.U.K. Fernando and V.J. Modi (Vancouver, B.C., Canada) 303
Effects of end plates and blockage of structural members on drag forces
Y. Kubo and K. Kato (Kitakyushu, Japan) and M. Miyazaki (Hiratsuka, Japan) 329
The development of models designed to fail under wind loading
D. Surry, D. Meecham, E.M.F. Stopar and M. Cholod (London, Ont., Canada) 343
